Dedication

While compiling this index, it was my fond thought that it would be used by those who have written often for the *Arboretum Bulletin* in the past and who might need a guide to the material that already has been published. For this reason, I wish to dedicate this Ten-Year Index to its users, and particularly to the memory of Joseph A. Witt, who has been one of the prime contributors to the *Bulletin* since 1955.

The Ten-Year Index
A Tradition Since 1955

In the tradition established by Mr. Brian O. Mulligan, director emeritus of the Arboretum, and former editor of and frequent contributor to the *Arboretum Bulletin*, we give over this entire issue to an index of the contents of the *Arboretum Bulletin* from the last ten years: 1974 through 1983.

As in previous indexes, the format consists of an index to authors and a separate index to subjects. Changes from previous indexes include a different use of symbols and the use of a standardized style for references (all explained below). The full titles of the articles are not included in the subject index.

Authors are listed alphabetically; titles of their articles are listed in chronological order except where there are a number of articles in a category (e.g. Arboretum Spotlight, Arboretum Annual Reports, Book Reviews). In this case, all articles in a particular category are included at the first mention of that category. Articles with multiple authors are listed under each author separately.

Subjects are listed alphabetically; most plants are listed by botanical name; some edible plants are also listed by common name. The subject headings used are similar to those in the 1973 cumulative index, and cross-references are provided where it seems they will be helpful. A few categories have been added to accommodate hard-to-index articles, such as *Philosophy*, for theory, viewpoints and musings about horticulture.

We wish to thank all those people who so generously have helped with this index:
(listed alphabetically)
Nancy Ballard
Ward Horn
Joseph Miller
Margaret Miller
Brian O. Mulligan
Nancy Pascoe
Jan Pirzio-Biroli
Ruth Vorobik

It is our sincere hope that those who use this index will find it helpful.

The ARBORETUM BULLETIN is published quarterly, as a bonus of membership, by the Arboretum Foundation, a non-profit organization to further the development of the Washington Park Arboretum. Information regarding membership in the Foundation may be obtained by writing to the Arboretum Foundation, University of Washington XD-10, Seattle, WA 98195 or by calling (206) 325-4510. Articles on botany and horticulturally-related subjects written by professional and amateur botanists, horticulturists, educators and gardeners are welcomed. No part of the BULLETIN may be reprinted without the authority of the Arboretum Foundation. Typesetting and lithography by Frayn Printing Company.
